Subject: Decontamination of Elkem Property

Dear Mr. Crago:

I am enclosing copies of two letters from the State of New York, Department of Labor, dated August 15, 1986, which document cancellation of Radioactive Materials Licenses 950-0139 (to process and use Thorium) and 210-0090 (to process and use radioactive isotopes). With the cancellation of 950-0139, the area behind Building 166, which has undergone extensive clean-up since 1982, is restored to unrestricted use.

As you are aware, in the first two weeks of August, Dube Construction Company completed reexcavation of the clay in the area behind Building 166 and backfilled and compacted it with more than one foot of crushed stone. With the license cancellation and the area restoration completed the decontamination of the area promised in the Tiger Project closing June 30, 1981 has been fulfilled.

Would you kindly acknowledge acceptance by signing and returning the second copy of this letter.

Very truly yours,

Donald J. Hansen
